ABOUT CARE RMC

CARE RMC is a trusted name in Ready-Mix Concrete (RMC), delivering high-quality concrete for all types of construction—homes, buildings, roads, and more. With reliable service, precise mixing, and timely delivery, we bring strength and consistency to every project.

We use modern technology and carefully selected materials to ensure every batch of concrete is strong, reliable, and built to last. Our expert team collaborates with builders, contractors, and developers to help complete projects more efficiently, safely, and intelligently.

Every order is handled with precision and care, ensuring that our clients receive consistent quality and dependable service throughout the entire process. We understand that time and trust are essential on every site, and we work hard to deliver both.

At CARE RMC, we believe in making construction simple. With timely delivery, quality service, and a commitment to excellence, we aim to be your go-to partner for all concrete needs.

STRONG MIX. SMOOTH WORK. SMART CHOICE.

That's the MASTERTEC way.

CARE RMC MISSION AND VISION

OUR MISSION

- › To deliver good quality Ready-Mix Concrete, on time, every time.
- › To make construction easier and smoother for our customers.
- › To work with honesty, safety, and care in everything we do.
- › To grow with our clients by building trust and long-term relationships.

OUR VISION

- › To help build a better world by providing strong, reliable, and easy concrete solutions for every kind of project.

WHY CHOOSE US ?

Choosing the right concrete partner can make a big difference in how smoothly and successfully your construction project goes. At CARE RMC, we focus on quality, timing, and service—so your work stays strong from the ground up.

At CARE RMC, we understand the importance of strong and reliable concrete for your project. Here's why people trust us:

High-Quality Concrete – We use the right mix of materials to produce strong, long lasting concrete.

On-Time Delivery – We value your time. Our team ensures your concrete reaches the site when you need it.

Modern Technology – Our concrete is mixed using smart, up-to-date machines that ensure consistent quality and efficient service on every project.

Experienced Team – Our skilled team works with care and attention, helping you at every step.

Customer Support – We're always ready to listen, assist, and make sure you're fully satisfied.

Whether you're Building A Home, Office, Road, or Anything Big or Small, We're Here To Support You With The Right Mix & The Right Mindset.

BUILD BETTER. BUILD STRONGER.
CHOOSE CARE RMC.

QUALITY ASSURANCE QUALITY CONTROL

We consider technical capability as our core competency. Engineers with relevant experience, exposure and educational qualifications are leading the technical department.

CARE RMC Technical Team is committed to R&D in concrete technology. Services of renowned concrete technologists are availed regularly for better knowledge creation.

CARE RMC manufactures in its fully automated and computerized concrete batching plants and supplies concrete mixes, which are designed in its well-equipped laboratories as per established procedures to comply with various provisions of Indian Standards. CARE RMC experienced logistics team works closely with you to ensure that the concrete of requisite quality is delivered on time and in the appropriate quantities.

Quality Council of India (QCI) has taken an initiative to establish an independent third party voluntary 'RMC Plant Certification Scheme' in the country to assure quality in operations and processes of RMC Plants.

FINE AGGREGATE

Fine aggregate is a granular material of size less than 4.75 mm called fine aggregate. Fine aggregates include the following materials like natural sand, crushed stone sand, crushed gravel sand etc.

COARSE AGGREGATE

Materials that are large enough to be retained on the 4.7mm sieve size usually constitute coarse aggregates

WATER

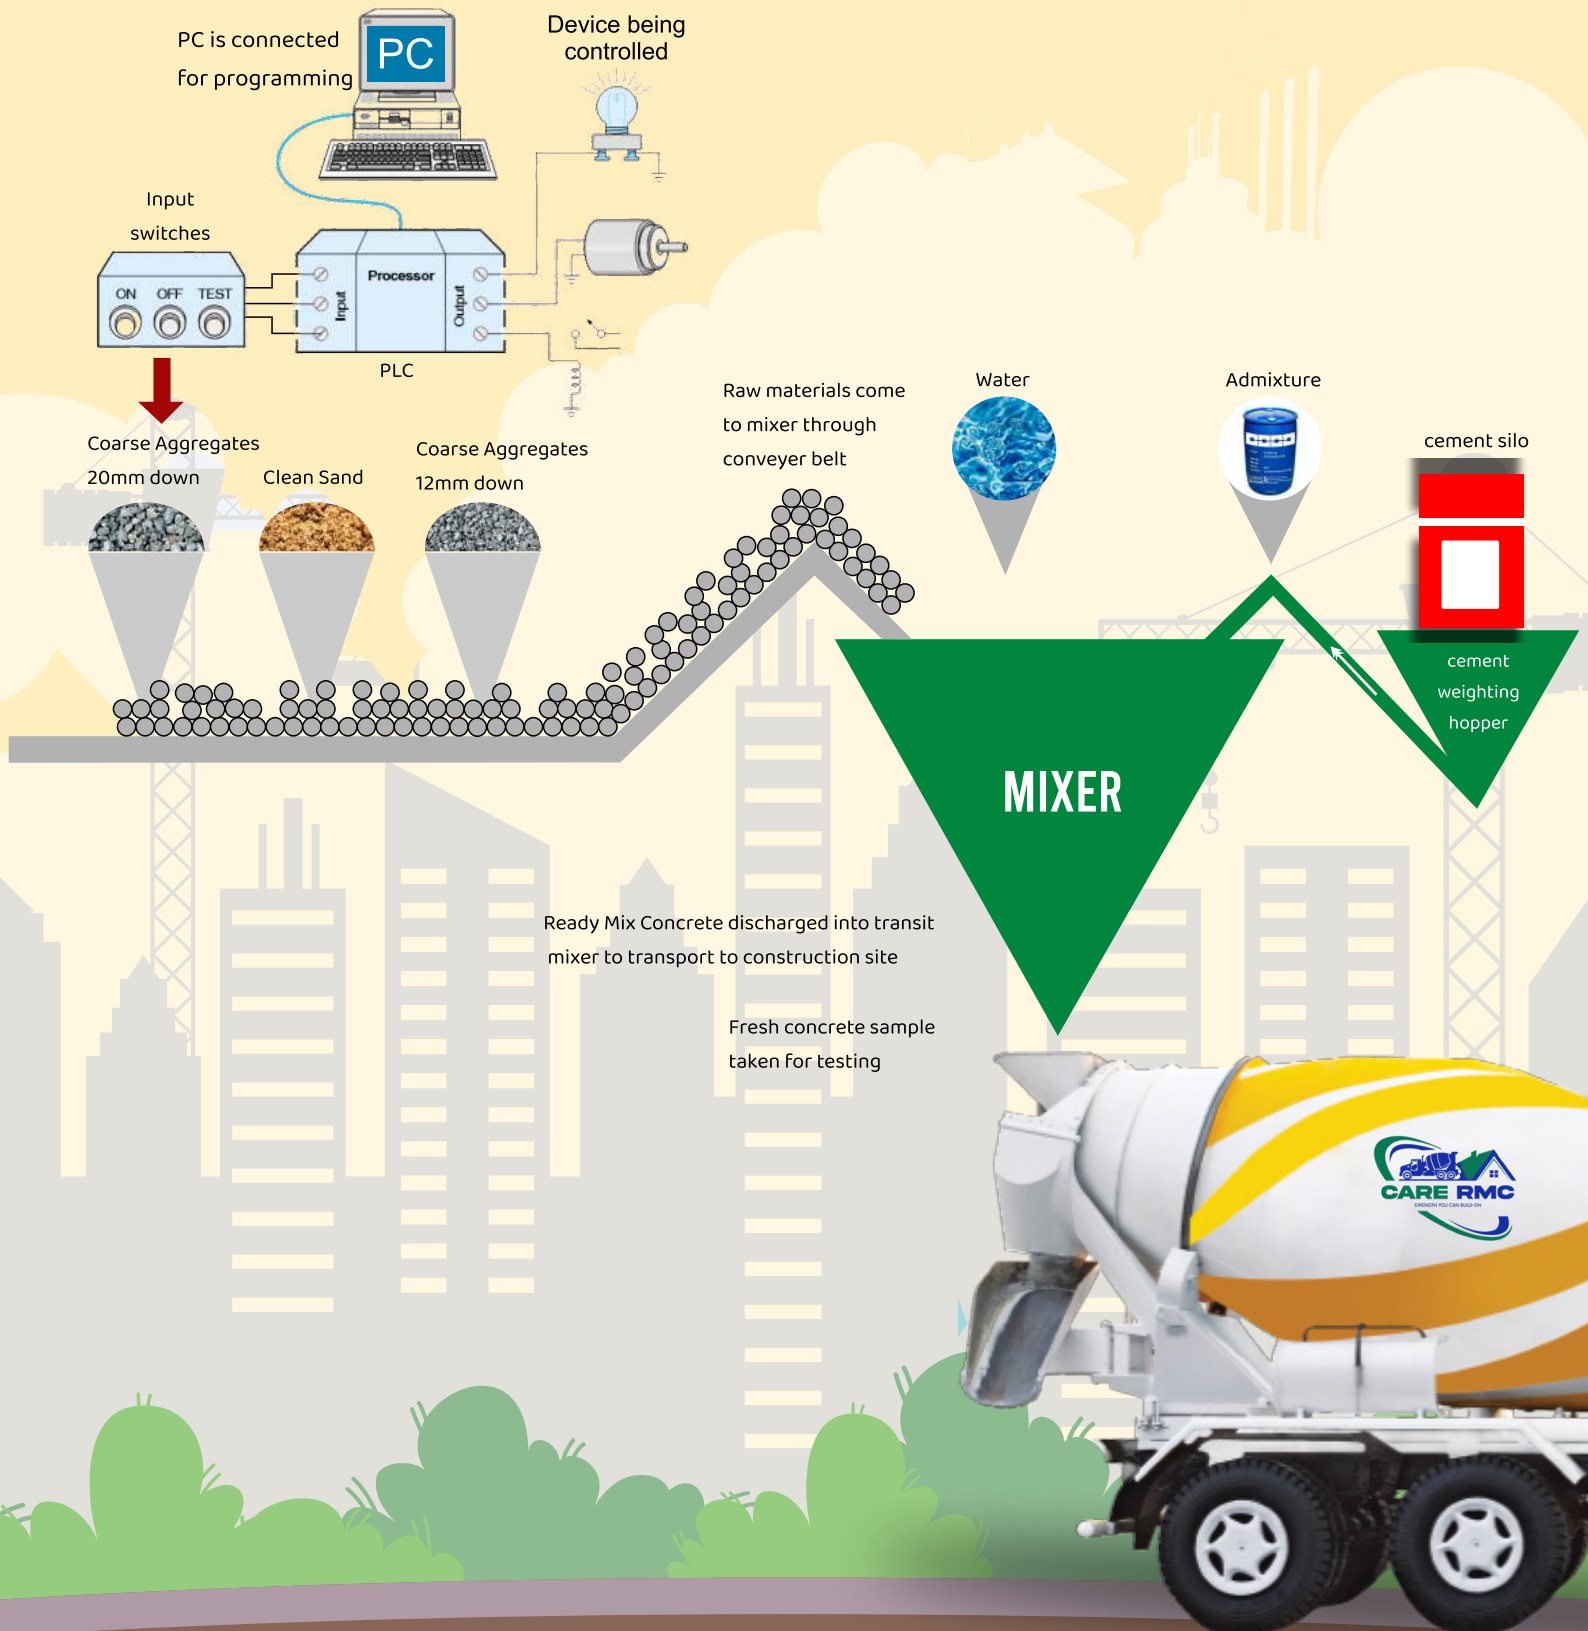

The water used for mixing and curing should be clean and free from injurious quantities of alkalis, acid, oils, salt, sugar, organic materials, vegetable growth and other substances that may be deleterious to bricks, stone, concrete or steel. Potable water is generally considered satisfactory for mixing. Water parameter test should be limited as per IS 456:2000.

CHEMICAL ADMIXTURE

Chemical admixtures are normally used to reduce the limitations of cement hydration, with examples being: water reducer, superplasticizer, retarder, accelerator, shrinkage preventer, segregation reducer, and heat evolution reducer..

SCIENTIFICALLY MIXED DESIGN

OUR PRODUCTS

CARE RMC SELFCRETE

CARE RMC SELFCRETE is a high-quality self-compacting concrete that flows and fills formwork with minimal or no vibration, ensuring a smooth finish. As one of the leading RMC SelfCrete manufacturers in Lucknow, Care RMC provides this advanced concrete solution for a variety of construction projects, offering ease of use and superior durability.

CARE RMC FIBRECRETE

Care RMC FIBRECRETE is a specialized fibre-reinforced concrete that enhances the strength and durability of structures. This product is ideal for projects requiring additional reinforcement. As a prominent RMC FibreCrete manufacturer in Lucknow, Care RMC offers reliable and high-performance concrete solutions.

CARE RMC LITE CREATE

Care RMC LITECRETE in lucknow is a specialized lightweight concrete that combines strength and reduced density, making it ideal for structures where weight reduction is crucial. It is commonly used in applications like roof decks, precast walls, and floors. As one of the top lightweight concrete block dealers in Lucknow, Care RMC offers high-quality lightweight foam concrete solutions that provide excellent thermal insulation and soundproofing properties, ensuring versatile and efficient construction.

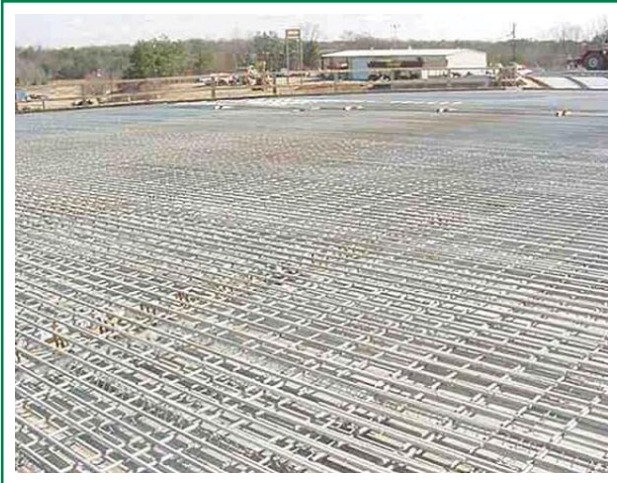

CARE RMC IMPRECRETE

Care RMC IMPRECRETE is a decorative concrete designed to enhance the aesthetic appeal of various surfaces. It offers a wide range of colors and textures, making it perfect for decorative applications. As a leading RMC ImpreCrete supplier in Lucknow, Care RMC provides quality decorative concrete for stylish and unique finishes.

OUR PRODUCTS

CARE RMC TEMPCRETE

Care RMC TEMPCRETE is a specialized concrete designed to maintain optimal temperature during curing, ensuring consistent quality and performance. This type of concrete is particularly useful in projects where precise temperature control is critical, such as in large-scale pours or extreme weather conditions. As a leading provider of temperature controlled concrete in Lucknow, Care RMC offers innovative solutions to meet the specific needs of construction projects, delivering reliable and durable results.

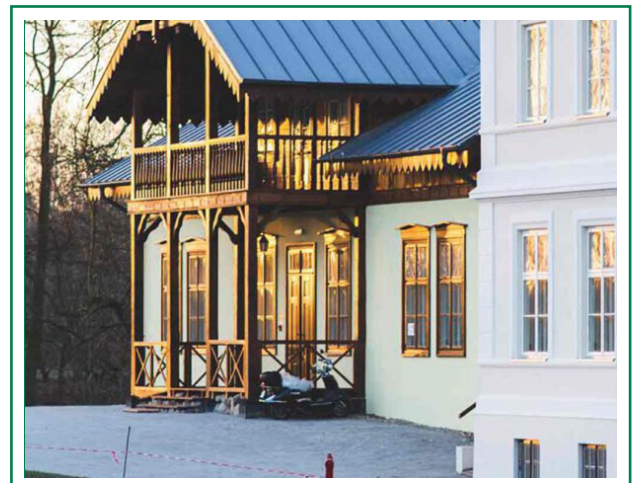

CARE RMC BAGCRETE

Care RMC BAGCRETE offers convenient, pre-mixed concrete in handy bags, perfect for small-scale projects and repairs. As a trusted RMC BagCrete manufacturer in Lucknow, Care RMC ensures that customers have access to high-quality concrete in a practical format for easy use.

CARE RMC GREENCRETE

Care RMC GREENCRETE is an eco-friendly concrete solution designed to reduce environmental impact. It incorporates sustainable materials and practices, making it an excellent choice for green construction projects. As a leading RMC GreenCrete manufacturing company in Lucknow, Care RMC is committed to providing environmentally responsible concrete products.

CARE RMC NATURECRETE

Care RMC NATURECRETE is a specialized pervious concrete that allows water to pass through, reducing runoff and promoting groundwater recharge. Ideal for environmentally sensitive areas, this concrete solution is offered by one of the top RMC NatureCrete manufacturers in India and a trusted RMC NatureCrete supplier in Lucknow, Care RMC.

OUR PRODUCTS

CARE RMC WATERPROOFCRETE

Care RMC WATERPROOFCRETE is a specialized water resistant concrete that offers excellent protection against moisture infiltration. Ideal for applications in basements, retaining walls, and water containment structures, this concrete ensures long-lasting durability and strength. As a leading RMC WaterproofCrete company in Lucknow, Care RMC provides high-quality, water-resistant concrete solutions for various construction needs.

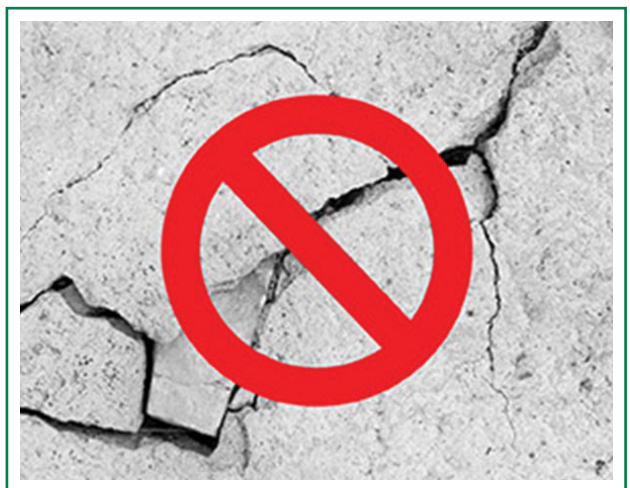

CARE RMC SUPERCREETE

Care RMC SUPERCREETE in lucknow is a high-strength concrete designed for structures requiring exceptional load-bearing capacity and durability. This product is ideal for heavy-duty applications like bridges, high-rise buildings, and industrial facilities. As one of the top RMC SuperCrete dealers in Lucknow, Care RMC offers reliable and robust concrete solutions to meet the most demanding construction requirements.

CARE RMC FAST TRACK CRETE

Care RMC FAST TRACK CRETE in lucknow is a high early strength concrete designed to achieve significant strength in a shorter time frame. This product is ideal for projects requiring rapid construction schedules, such as road repairs, airport runways, and precast elements. By providing high early strength concrete in Lucknow, Care RMC ensures faster project completion without compromising on durability and quality. This specialized concrete offers quick setting times and early load-bearing capacity, making it an essential choice for time-sensitive construction projects.

CARE RMC CRACKFREECRETE

Care RMC CRACKFREECRETE in lucknow is a specialized crack resistant concrete designed to minimize the formation of cracks, ensuring a durable and long-lasting finish. This product is ideal for structures such as slabs and pavements. As a leading provider of crack resistant concrete in Lucknow, Care RMC offers crack proof cement solutions that enhance the longevity and integrity of construction projects.

OUR PRODUCTS

CARE RMC PASSIVECRETE

Care RMC PASSIVECRETE in lucknow is an acid-resistant concrete that provides excellent protection against acidic environments. Ideal for use in chemical plants, industrial floors, and wastewater facilities, this concrete is essential for structures exposed to corrosive substances. Care RMC, a Top Acid Proof Cement Dealer in Lucknow, offers acid proof cement and acid proof cement brick in Lucknow under the Care RMC passivecrete in Lucknow .

CARE RMC PROCRETE

Care RMC PROCRETE in lucknow is a workability retaining concrete that maintains its plasticity and ease of handling for extended periods, making it suitable for complex construction projects. It includes concrete waterproofing admixture, providing added protection against water ingress. As a leading supplier of concrete waterproofing admixture in Lucknow, Care RMC offers Care rmc procrete in Lucknow and RMC PROCRETE concrete admixture solutions, ensuring superior workability and durability.
